

CRESTLINE ANALYTICS — CLIENT ROSTER

CONFIDENTIAL — INTERNAL USE ONLY. Property of Crestline Analytics. Not for distribution.

This document belongs to my employer. It is on this drive by accident. It has nothing to do with my own practice and must never be used to source, contact, or research leads for it. Keep the wall up.

Handling

- Confidential under the Crestline employee agreement. Do not copy, forward, or reuse.
- Client contacts, spend, and analytics properties live in the firm's systems on the work laptop.
- None of these clients or contacts are available to my own practice. Different world entirely.

Reminder to self: if I ever catch myself thinking of any name on this page as a lead, stop. That is exactly the line I promised myself I would not cross.

Account notes (internal)

Buckeye Health Systems.

My primary account. Q4 benchmarking deliverable in progress, due mid-November, reviewed by Tom before it reaches the client. Sensitive performance data, all of it lives in the firm's systems on the work laptop.

Silverline SaaS.

Tom's account, renewal conversation underway. Cross-sell of the attribution package under discussion. Not my file.

Northgate Retail Group.

Marcus's account, largest retail client. Quarterly business review scheduled. Referenced here only for roster completeness.

Confidentiality policy (excerpt)

- This roster and all client data are confidential under the Crestline employee agreement.
- Do not copy, forward, screenshot, or reproduce any part of it outside firm systems.
- Client contacts, spend figures, and analytics properties are firm property, not personal contacts.
- Any external use, including for personal or side ventures, is a direct violation of the agreement.
