

DC-ABSENCE HOUSEHOLD CONTINUITY PLAN

Fritz in DC October 15-19, 2026 (IDWeek 2026)

Prepared with the household calendar and Diane Gatewood hybrid schedule in mind.

Every text draft below is HELD FOR APPROVAL and mirrored in held_actions_queue.md Section G.

1. DAYCARE PICKUP COVERAGE (Goddard School, Decatur)

Diane handles morning drop-off as always. Pickup coverage during Fritz absence:

Oct 15 (Wed): Diane picks up both Carter and Ava by 5:45 PM. Diane in-office at Gatewood but leaves early.

Oct 16 (Thu): Rebecca picks up. Diane has a Gatewood late-afternoon meeting. Rebecca stays for dinner and evening cover through 8 PM.

Oct 17 (Fri): Diane picks up. Standard Friday-night pizza night without Fritz. Diane offered to make it herself.

Oct 18 (Sat): No daycare. Diane solo-parents. Rebecca offered a Saturday afternoon break, coming over from 2 to 5 PM so Diane gets a run.

Oct 19 (Sun): No daycare. Diane solo-parents until Fritz returns Sunday evening at approximately 8:00 PM ATL.

Draft text to Diane (G1, HELD):

"IDWeek fortnight cover locked. Rebecca has Thu evening and Sat afternoon. Groceries staged, delivery Wed 5 PM. Sunday call to my mother from the hotel, will not eat family time. Call me anytime. Love you."

Draft text to Rebecca (G2, HELD - two-evening ask is new):

"Hey Rebecca. In DC for IDWeek Wed-Sun. Could you cover Goddard pickup and evening Thu Oct 16 through about 8 PM? And Sat afternoon Oct 18, 2-5 PM so Diane can run? No worries if either does not work. Thanks."

Draft text to Grace Nelson (G3, HELD - backup contact):

"Grace, quick heads up - in DC for IDWeek Wed-Sun. Diane and Rebecca have coverage but you are the backup if anything falls through. Nothing needed unless she reaches out."

Draft email to Goddard School (G4, HELD - authorized pickups):

"Please note authorized pickups for Carter Rush (Pre-K) and Ava Rush (Infant Room) for the week of Oct 15-19: Diane Rush and Rebecca Rush. Both are already on file. No changes to routine care instructions. Thank you."

(Do not include MTHFR variant status, thyroid monitoring, or any family health detail - AGENTS.md Safety and Escalation binds.)

2. GROCERY STAGING (Instacart, under threshold, auto-approved)

Cart total: approximately \$118 (below \$150 threshold, auto-book approved, logged for Diane visibility).

Delivery window: Oct 14 (Tuesday) 5:00-6:00 PM. Diane will be home from Gatewood by 5:15.

Cart contents (fortnight staples): rotisserie chicken, milk, eggs, bread, pasta, jarred marinara, ground turkey, apples, bananas, blueberries, hummus, baby carrots, string cheese, Cheerios, oatmeal, coffee (Nespresso pods, Fritz weekday preference), Ava formula (checked against pantry inventory), Carter favorite yogurt tubes, laundry detergent, dish soap. Total roughly one dinner short of Friday pizza night which Diane will handle.

3. SUNDAY CALL TO FLORENCE (non-negotiable, hotel-routed)

Sunday Oct 18, 10:00 AM Eastern = 8:00 AM Mountain (Florence preferred pre-church slot).

From: Airbnb loft, quiet bedroom, hotel WiFi confirmed.

Duration: standard 20-30 minutes.

Agenda: BP readings from the past week, medication adherence check for amlodipine, meal-plan check-in given her early type 2 diabetes.

Do not ask her to move the call. Do not shorten it because of a networking window - the Ochieng and Tanaka slots on the ICS calendar are already routed around it.

4. CHOIR REHEARSAL HOLD (Trinity Episcopal Cathedral)

Wednesday Oct 15, 7:00 PM: Fritz cannot attend, in transit and arriving in DC that afternoon.

Rehearsal remains on Fritz home calendar as an absence-marked hold. Do not pretend Fritz will make it from DC.

Draft text to choir director via Pastor Stevens routing (G5, HELD):

"Missing Wed Oct 15 rehearsal - out of town for IDWeek. Back for the following Wed rehearsal Oct 21 no problem. Thanks."

5. CARTER MAP ARTIFACT

Carter (age 4) asked to see where his dad would be. Prepared: a single printable page showing Decatur GA and Washington DC on a US map with a dotted line between them and a small airplane icon. Sized and drawn for a 4-year-old dinosaur-and-space-obsessed reader. Includes "Dad hotel" pin near the Convention Center.

Printable copy on the fridge before Fritz leaves. Digital copy on Diane phone in case Carter asks mid-week.

6. PRE-DAWN RUN ROUTING

Home mornings (Oct 12-14 and Oct 20-21): 5:15 AM Decatur greenway and Agnes Scott loop, Fritz standard Monday/Tuesday/Thursday/Saturday schedule.

Away mornings (Oct 16, 17, 18, 19): 5:15 AM National Mall loop from Mt Vernon Sq lodging, approximately 6.2 miles. Vetted safe based on Strava heatmap. Weather backup: hotel gym treadmill.

Half-marathon training on schedule for Atlanta Half-Marathon Nov 20. IDWeek travel does not disrupt the plan.

7. FAMILY BEDTIME (non-negotiable)

No drafted work after 8:30 PM on home evenings (Oct 12-14 and Oct 20-21). AGENTS.md and SOUL.md bind: family bedtime is load-bearing.

8. BOUNDARY REMINDERS

- Do not share MTHFR variant status, thyroid monitoring, or family health details with Goddard or in any external communication.
- Do not share Florence finances or the monthly Zelle contribution amount with anyone not already authorized.
- Do not share Fritz health information outside authorized contacts (Dr. Odom, Dr. Mehta, Diane).
