

Proposal: VIP Floor Shift Differential

Grand Sierra Hotel, Housekeeping. Submitted by Chris Murray, Floor Supervisor, Floors 12 to 18.

To: Gerald Patterson, General Manager. Date: February 2, 2026.

Summary

I am requesting a 1.50 dollar per hour shift differential for housekeepers assigned to VIP and high-roller suites on floors 12 to 18. The work is measurably heavier and higher risk to guest satisfaction, and the current flat rate does not reflect that.

The Problem

VIP rooms take longer, carry stricter standards, and absorb the most last minute requests. The same housekeepers carry that load every shift for the same pay as a standard room board. Over time the strongest people quietly ask off the VIP rotation, which puts our most visible rooms in the least experienced hands.

The Numbers

Measure	Standard Room	VIP Suite
Average minutes per room	28	41
Amenity items per room	9	17
Inspection points checked	22	38
Rooms per 8 hour shift	15	11

A 1.50 dollar differential on roughly 6 VIP assignments per day across the floors is about 72 dollars per day, or near 26,000 dollars per year. That is a small line against the revenue these suites carry and the cost of a bad VIP review.

The Ask

Approve the differential for VIP assigned hours, tracked on the existing floor sheet. I will report the rotation monthly so the cost stays visible and fair. I am happy to pilot it on floor 16 for one quarter and bring you the numbers.

Respectfully, Chris Murray. Extension 4827.
