Re: Guest commendation, suite PH-1, stay of January 9 to 14

James,

I am forwarding a note we received from Mrs. Catherine Donnelly, who stayed with us during the December art fair week and again earlier this month. She asked that it reach the right person. Her words, lightly trimmed:

"In fifteen years of traveling I have rarely been looked after the way Elizabeth Robles looked after us. She remembered my husband does not eat shellfish, she found us a table at a restaurant that told me twice it was full, and she did all of it without ever once making me feel like a bother. She is the reason we will be back."

Please pass our thanks to Elizabeth directly. This is the standard we want the desk known for.

Warm regards,

Margaret Ellison
