CBC	WNL	See lab report	Normal
CMP	WNL	See lab report	Normal

Assessment and Plan

1. General health: Excellent. All labs within normal limits. Vitamin D adequate on D3 2000 IU/day. Cardiovascular risk profile is low. Continue current diet and exercise regimen.
2. Chronic sinusitis: Four infections since July 2024. Maintained on fluticasone propionate nasal spray and saline irrigation. Annual ENT follow-up with Dr. Sorensen recommended for October 2025.
3. Seasonal allergies: Well managed with cetirizine 10 mg during pollen season. No changes to plan.
4. Medications reviewed: Fluticasone, cetirizine (seasonal), vitamin D3 2000 IU daily, magnesium glycinate 400 mg nightly. All appropriate.
5. Preventive care: Vaccinations current. Next colorectal screening recommended at age 45.

Next Annual Physical: Contact Mountain View Primary Care at 406-555-0710 to schedule
