Assessment and Plan

- Hyperlipidemia: LDL 139, above goal. Continue atorvastatin 20 mg nightly. Diet and exercise counseling given.
- Hypertension: continue lisinopril 10 mg daily. Home monitoring encouraged.
- Overweight, BMI 31.4: goal to lose 15 to 20 pounds. More vegetables, less red meat, cut sweetened iced tea.
- Left knee, prior meniscus repair (2005): occasional flare, use brace during practice. No new injury.
- Preventive: influenza vaccine given today. Next annual physical due in one year. Recommend interim lipid recheck.
