Tenant responsibilities

In exchange for the below market rate, the tenant maintains the property and handles seasonal tasks that would otherwise fall to the landlord. This arrangement works because both parties know the property and the demands of a mountain winter.

- Maintain the cabin and grounds in good condition.
- Split and stack firewood for the wood stove that supplements the heat.
- Clear the roof after heavy snow to protect the structure.
- Report any maintenance need quickly so it can be handled before it grows.

Utilities and notes

Item	Responsibility
Electric baseboard and wood stove	Tenant pays electric, supplies own wood
Internet	Tenant, satellite service at the cabin
Water and septic	Landlord maintains the system
Snow removal, drive	Tenant clears, landlord plows after large storms

Annualized rent	\$21,600.00

This receipt confirms payments received through February 2026. The lease continues month to month on the same terms. Both parties intend to keep the arrangement as long as it suits each of them.

Received with thanks, Bill Hensley.
