

Estate Production Report

Finca Miles - Season 2025-26

Owner	Min Miles Park	Olives milled	78,700 kg
Estate	35 ha, Picual + Hojiblanca	Oil produced	11,812 L
Cooperative	Cooperativa Oleicola Sierra Morena	Avg yield	15.0%
As of	2026-10-18	Gross revenue	EUR 94,964

1. Season overview

Season 2025-26 produced **11,812 litres** of extra-virgin olive oil from **78,700 kg** of fruit across the estate's eight parcels, an average extraction yield of **15.0%**. The harvest ran from early November to mid-January, pressed in segregated lots so that single-estate premium oil could be kept apart from cooperative-pool fruit and from the organic-transition east grove. Roughly 60% of the oil was bottled under the Miles premium label or allocated to premium buyers, with the balance pooled through the cooperative.

2. Production by parcel

Parcel	Name	Variety	Olives (kg)	Oil (L)	Yield %
C-1	Casa	Picual/Hojiblanca	3,600	541	15.0
E-1	Este Llano	Picual	10,000	1,501	15.0
E-2	Este Ladera	Hojiblanca	7,000	994	14.2
E-3	Este Arroyo	Picual	5,400	807	14.9
N-1	Norte Alto	Picual	18,500	2,785	15.1
N-2	Norte Bajo	Picual	14,000	2,162	15.4
O-1	Oeste Viejo	Picual	8,200	1,270	15.5
S-1	Sur	Hojiblanca	12,000	1,752	14.6
TOTAL			78,700	11,812	15.0

Full lot-by-lot detail (maturity index, chemistry, malaxation temperature, destination) is in the harvest log, workbook X02. The join key across all records is the lot id (MIL-202526-NNN).

3. Quality summary

All single-estate lots tested as extra-virgin (free acidity well below the 0.80% limit, peroxide under 20). The flagship lot, **MIL-2526-006**, returned a free acidity of 0.16% and an accredited sensory panel score of 86.5 (see the Certificate of Analysis, PDF P03, and workbook X08).

Lot	Parcel	Variety	Acidity %	Peroxide	Polyphenols	Destination
MIL-2526-001	N-1	Picual	0.18	5.6	588	Premium
MIL-2526-002	N-1	Picual	0.17	5.1	602	Premium
MIL-2526-003	O-1	Picual	0.24	6.8	470	Cooperative pool
MIL-2526-004	N-2	Picual	0.19	5.4	560	Premium
MIL-2526-005	E-1	Picual	0.16	4.9	631	Premium
MIL-2526-006	N-1	Picual	0.16	5.2	612	Premium
MIL-2526-007	N-1	Picual	0.18	5.5	575	Premium
MIL-2526-008	E-3	Picual	0.17	5.0	598	Premium
MIL-2526-009	N-2	Picual	0.21	6.0	512	Premium
MIL-2526-010	O-1	Picual	0.28	7.4	418	Cooperative pool
MIL-2526-011	E-1	Picual	0.19	5.6	540	Premium
MIL-2526-012	N-2	Picual	0.23	6.3	486	Cooperative pool

4. Sales and channels

Channel	Buyer	Litres	EUR/L	Revenue EUR
Buyer - export ES	Romero Gourmet Distributor	1,920	9.50	18,240
Buyer - export DE	Felderhoff Feinkost (Hambu	620	10.50	6,510
Buyer - export UK	Crest & Grove (London)	500	10.80	5,400
Direct / agritourism	Finca Miles (Soo-Jin)	980	14.50	14,210
Premium - regional HORECA/Various	(Cordoba/Sevilla)	780	9.80	7,644
Cooperative pool	Cooperativa Oleicola Sierr	4,690	4.30	20,167
TOTAL gross				94,964

5. Organic transition (east grove)

The east grove (parcels E-1, E-2, E-3, 12 hectares) is in year 2 of the three-year conversion to certified organic, with final EU inspection targeted for spring 2027. Transition fruit was pressed segregated and sold as premium conventional this season; from 2027 it can carry the organic mark. Inputs are logged for audit in workbook X03 and narrated in the organic dossier (PDF P02).

6. Irrigation modernization (north grove)

Phase 1 drip (parcel N-1, 6 ha) has completed its first full season on the HydroSense controller. Phase 2 converts parcel N-2 (5.5 ha) from flood to precision drip, scheduled for October 2026 and partly funded by an EU rural-development grant. Costing and grant detail are in workbook X06 and the grant application (PDF P05).

7. Outlook

- Complete irrigation Phase 2 before the dry summer of 2027.
- Carry the east grove to organic certification (spring 2027).
- Add up to three export buyers in Germany, the UK and Switzerland by end 2027.
- Hold premium sensory scores above 85 and protect single-estate margins.

8. Parcel register

Parcel	Name	Variety	Ha	Irrigation	Status	Trees
N-1	Norte Alto	Picual	6.0	Drip (Phase 1, Nov 202	Conventional	1,180
N-2	Norte Bajo	Picual	5.5	Flood to Drip (Phase 2	Conventional	1,060
E-1	Este Llano	Picual	5.0	Drip	Organic in-conversio	980
E-2	Este Ladera	Hojiblanca	4.0	Rainfed	Organic in-conversio	760
E-3	Este Arroyo	Picual	3.0	Drip	Organic in-conversio	590
S-1	Sur	Hojiblanca	5.5	Flood	Conventional	1,050
O-1	Oeste Viejo	Picual	4.0	Rainfed	Conventional	520
C-1	Casa	Picual/Hojiblanca	2.0	Rainfed	Conventional	360
TOTAL			35.0			6,500

9. Season at a glance

Metric	Value
Olives milled	78,700 kg
Oil produced	11,812 L
Premium / Miles label	7,122 L (60%)
Cooperative pool	4,690 L
Average yield	15.0%
Lots pressed	25
Flagship lot	MIL-2526-006
Gross revenue	EUR 94,964

10. Key dates ahead

- 22 Oct 2026 - cooperative autumn general meeting (harvest projections, organic subsidy).
- Oct 2026 - irrigation Phase 2 installation (parcel N-2).
- 7 Nov 2026, 2026-27harvest begins.
- 1 Mar 2027 - EU organic final inspection (east grove).

Prepared for the estate record by the office of Min Miles Park, Finca Miles.
