

Certificate of Analysis

Extra virgin olive oil, flagship single-estate lot MIL-2526-006

1. Sample identification

Certificate reference	P03 / LAS-2526-0412
Lot	MIL-2526-006
Producer	Finca Miles, Carretera de Cordoba, 14850 Baena, Cordoba
Owner	Min Miles Park
Variety	Picual (100 percent)
Parcel of origin	N-1 Norte Alto
Harvest season	2025-26 (early harvest)
Laboratory	Laboratorio de Analisis Sensorial, Estacion de Olivicultura, Jaen
Accreditation	ENAC 412/LE-1187
Sample received	2025-11-24
Reported	2025-11-28

2. Physico-chemical results

Results are reported against the EU extra-virgin category limits (Regulation EEC 2568/91 and amendments). All parameters fall within the extra-virgin category.

Parameter	Result	EVOO limit	Verdict
Free acidity (percent as oleic)	0.16	<= 0.80	Pass
Peroxide value (meq O2/kg)	5.2	<= 20.0	Pass
K232	1.78	<= 2.50	Pass
K270	0.12	<= 0.22	Pass
Delta-K	0.001	<= 0.01	Pass
Polyphenols (mg/kg)	612	report only	-
Ethyl esters (mg/kg)	18	<= 35	Pass
Moisture (percent)	0.05	report only	-

3. Sensory panel assessment

Organoleptic assessment was carried out by the accredited tasting panel of the Estacion de Olivicultura under the IOC method for the organoleptic assessment of virgin olive oil. The panel confirms zero median defect, placing the oil in the extra-virgin category, with a fruity median consistent with an early-harvest Picual.

Attribute	Median	Notes
Median of defects	0.0	No defect perceived; extra-virgin confirmed
Median fruity	6.5	Green, early-harvest character
Bitter	5.8	Pronounced, typical of Picual
Pungent	6.1	Persistent peppery finish
Panel score	86.5	Premium single-estate band

4. Descriptive note

Aroma of fresh-cut grass, green tomato leaf, and artichoke, with a clean almond back-note. On the palate the oil is robust and structured, bitter and pungent in balance, with a long peppery finish that confirms a high polyphenol load. The profile is characteristic of an early-harvest Subbética Picual from the Norte Alto parcel.

5. Methods and standards

- Free acidity: titration, EEC 2568/91 Annex II.
- Peroxide value: EEC 2568/91 Annex III.
- Spectrophotometric indices K232, K270, Delta-K: EEC 2568/91 Annex IX.
- Ethyl esters: EU 61/2011 method.
- Polyphenols: total biophenols by HPLC, COI/T.20/Doc 29.
- Organoleptic assessment: IOC method, accredited panel under ENAC 412/LE-1187.

6. Chain of custody

Step	Date	Handler	Note
Sampling at estate	2025-11-22	Min Miles Park	500 mL drawn from tank N1-A, sealed
Transport to laboratory	2025-11-23	Estate courier	Seal intact on receipt
Sample received	2025-11-24	Laboratory intake	Ref LAS-2526-0412 assigned
Analysis complete	2025-11-27	Laboratory	Chemistry and panel
Certificate reported	2025-11-28	Laboratory	Issued to producer

7. Declaration

On the basis of the physico-chemical and organoleptic results above, lot MIL-2526-006 meets the requirements for the category EXTRA VIRGIN OLIVE OIL. This certificate relates only to the sample submitted and is issued as a standalone document (referenced from PDF P01, workbook X08, and narrative D04). The flagship lot is recorded in the estate quality tracker X08; this certificate is the accredited panel record.

8. Additional purity parameters

The following supplementary parameters were determined to confirm authenticity and the absence of refined-oil or seed-oil admixture. All results are consistent with a genuine extra-virgin Picual.

Parameter	Result	Reference range	Verdict
Stigmastadienes (mg/kg)	0.02	<= 0.05	Pass
Trans-oleic isomers (percent)	0.01	<= 0.05	Pass
Campesterol (percent of sterols)	3.2	<= 4.0	Pass
Total sterols (mg/kg)	1,420	>= 1,000	Pass
Erythrodiol + uvaol (percent)	2.1	<= 4.5	Pass
Waxes (mg/kg)	118	<= 150	Pass

9. Storage and validity

- Store away from light and heat; recommended below 18 degrees Celsius.
- Best consumed within 18 months of the harvest date for peak polyphenol value.
- This certificate reflects the sample as received and does not cover later handling.

Authorised by the laboratory technical manager, Estacion de Olivicultura, Jaen. Accreditation ENAC 412/LE-1187. Certificate ref P03 / LAS-2526-0412.
