

Export Proposal - Single-Estate Picual EVOO

Finca Miles - Baena, Andalusia

1. The estate

Finca Miles is a 35-hectare family olive estate in the Subbetica hills south of Baena, in the heart of the Cordoba olive country. We grow principally Picual, with some Hojiblanca, and press our own single-estate oil. Production is small by design - about 11,812 litres a year - and roughly 40% is kept apart as premium single-estate oil under the Miles label; the rest is pooled through our cooperative. The estate is family-run, now in its second generation on this land.

2. The oil

Our premium oil is an early-harvest, cold-extracted Picual: green, aromatic, with a medium bitterness and a peppery, persistent finish. The flagship lot this season scored 86.5 on an accredited sensory panel, with a free acidity of 0.16% and 612 mg/kg total polyphenols - above the threshold for the EU polyphenol health claim. A full Certificate of Analysis accompanies every premium lot.

Variety	100% Picual (premium)	Polyphenols	612 mg/kg
Style	Early harvest, robust	Formats	750ml / 500ml tin / 250ml
Panel score	86.5 / 100	CoA	per lot
Acidity	0.16%	Capacity	limited single-estate

3. Current export relationships

Buyer	Market	Since	Format
Romero Gourmet Distributors	Spain (Sevilla)	established	bulk + 750ml
Felderhoff Feinkost	Germany (Hamburg)	2026	500ml tins
Crest and Grove	UK (London)	2026	750ml specialty

We currently ship to three buyers and are looking to add a small number of specialty importers who value provenance and quality over volume. Order history and terms are managed internally (workbooks X04, X10).

4. What we offer a new partner

- Single-estate traceability to the parcel and lot, with a Certificate of Analysis per lot.
- Early-harvest premium Picual with a documented high-polyphenol profile.
- From 2027, certified-organic oil from our east grove (currently year 2 of conversion).
- Small, reliable allocations - we would rather supply you well than over-promise.
- Direct relationship with the grower; a handshake still means something here.

5. Indicative pricing (premium, ex-works)

Format	Indicative EUR	Note
Bulk (per L, premium)	9.50 to 10.80	by volume + market
750 ml glass	case of 6	retail-ready
500 ml tin	case of 12	export-friendly
250 ml gift tin	case of 24	gifting / sampling

6. Logistics

- Palletised road freight within the EU; road-plus-sea to Hamburg; road-plus-ferry to the UK with customs documentation.
- Commercial invoice, packing list, lot CoA and EU movement documents with every shipment.
- From 2027, organic certification documents for east-grove oil.

7. Next step

We would be glad to send a sample pack with tasting notes and the current Certificate of Analysis for your evaluation. Tasting notes and production specifications are prepared for each prospective partner individually; we keep the approach personal rather than mass-market.

8. The estate story

The family has farmed olives in this region for two generations. The estate passed to its present owner in 2020, and is run as a small, hands-on operation: the same hands prune the trees, watch the press and read the lab results. Quality is chosen over volume deliberately - two acquisition offers from larger estates have been declined to keep the estate in the family and on its own terms.

9. Sustainability

- East grove in conversion to certified organic (year 2 of 3; certified from spring 2027).
- Cover cropping and estate compost build soil organic matter and structure.
- Drip-irrigation modernization cutting water use, parcel by parcel.
- Integrated pest management: traps, kaolin and targeted bait rather than calendar spraying.

10. Quality assurance

Control	Detail
Lot segregation	premium, pool and organic-transition pressed apart
Certificate of Analysis	accredited lab, per premium lot
Cold extraction	malaxation at 24 C
Traceability	parcel-and-lot id on every premium unit
Sensory panel	accredited; flagship 86.5/100

11. Contact

Enquiries are handled directly by the estate. We respond personally, in English for international partners, and are happy to arrange a visit to the grove and press house in the Subbetica.
