eGFR	88 mL/min	Greater than 60 mL/min	Normal
TSH	2.1 mIU/L	0.4 to 4.0 mIU/L	Normal
Complete Blood Count	Within normal limits	Normal	Normal

PROVIDER ASSESSMENT AND PLAN

Rebecca continues to manage her Type 2 diabetes effectively. Her A1C of 6.4% reflects excellent glycemic control and is consistent with her Dexcom G7 time-in-range data. Weight is down approximately 12 pounds from her baseline in January 2025, reflecting sustained progress with nutritionist Lisa Moore.

LDL of 112 mg/dL is borderline. We will recheck in 12 months. If no further improvement, we will discuss statin therapy. Blood pressure is excellent at 122/78.

Next preventive physical: October 2026. Diabetic retinopathy screening due: November 2025 with Dr. James Howard. Mammogram referral placed today. Continue Dexcom G7 monitoring and Metformin 1000mg twice daily.

Electronically signed: Dr. Stephanie Wright, MD | October 14, 2025
