Result

Line	Amount
Gross receipts	\$24,600.00
Less total expenses	\$7,200.00
Net profit	\$17,400.00

Planning notes

- Estimated self-employment tax is set aside quarterly; the Q4 payment covers the year-end true-up.
- A Washington LLC election for Moonstone is under consideration for 2026; it would not change this personal summary.
- Freelance income supports personal costs; Carlos draws nothing from the studio.

- Health-insurance premiums (\$320 per month) may be partially deductible against this net profit at filing.

This is a personal working summary for planning, not a filed return. The studio books, burn rate, and reserve are tracked separately from this personal activity.
