Disclosures

This is a fixed-rate simple-interest contract. Late payments accrue after a ten-day grace period. Autopay from the Webster Bank checking account is enrolled on the 5th of each month. A duplicate title and lien-release request may be submitted after final payment. Retain this statement with the household vehicle and insurance records.

Definitions & Early-Payoff Illustration

Scenario	Months saved	Interest saved	Notes
Pay as scheduled	0	\$0	30 payments remain
Add \$100 / month	5	≈ \$310	Shortens term
Lump payoff now	30	≈ \$920	Frees \$485/mo for savings

Amount financed is the vehicle price plus taxes and fees less down payment and trade-in. The annual percentage rate reflects the cost of credit as a yearly rate. A ten-day payoff quote, good through a stated date, is available on request. Freeing this payment through an early payoff is one lever considered in the household roof-fund and savings plan.
