Property	47 Hillcrest Avenue	Lot size	0.14 acre
City / State	Crestwood, Yonkers, NY 10707	Living area	1,800 sq ft + finished basement
Neighborhood	Crestwood	Year built	1952 (updated 2019)

Assessed Value

Component	Prior year	Current roll
Land value	\$168,000.00	\$172,000.00
Improvement (structure) value	\$340,000.00	\$348,000.00
Total assessed market value	\$508,000.00	\$520,000.00
Assessed value for taxation		\$520,000.00

Assessment basis This assessed value of \$520,000.00 is the City of Yonkers taxable valuation for the roll year. It is set for property-tax purposes and typically trails current market conditions; it is not an appraisal or a listing price and should not be used as the home's current market value in a net-worth or equity calculation.

Exemptions & Grievance

No STAR or veterans exemption is currently applied to this parcel; owners may check eligibility with the assessor. Property taxes and homeowner's insurance are collected through the mortgage escrow at approximately \$1,100.00 per month, so the levy above is already captured inside that escrow and must not be double-counted. Owners who believe the assessed value is incorrect may file a grievance with the Board of Assessment Review by the fourth Tuesday in May.

How Your Tax Bill Is Calculated

The annual tax is the assessed value multiplied by the combined tax rate per thousand of value, less any exemptions, and is billed and collected by the City of Yonkers. Because this household pays through a mortgage escrow, the servicer disburses the tax on the owners' behalf and the amount is already reflected in the roughly \$1,100 monthly escrow. The assessed value is a taxation figure only and lags the market; a current market value for equity purposes should come from recent comparable sales, not from this notice.
