Term: Fall 2026
NYS DOH curriculum

EMS 101 — Emergency Medical Technician Certification

Instructor	Chris Johnson	Meets	Tuesday & Thursday, 6:00–9:00 PM
Email	chris.johnson@greenridertech.com	Room	Haaren Hall 630
Office hours	By appointment (Zoom)	Credits	6 (NY State DOH)
Department chair	Dr. Angela Torres	Prerequisite	None; 16+

Course Description

EMS 101 prepares students for the New York State Department of Health EMT-Basic certification examination. The course integrates classroom instruction, hands-on psychomotor skills, and scenario-based field simulations drawn from the instructor's operational experience in the FDNY. Students learn patient assessment, airway management, trauma and medical emergency care, and mass-casualty triage, and must pass both a written and a practical skills examination to be eligible for state certification.

Learning Objectives

- Perform a complete primary and secondary patient assessment and communicate findings using standard report format.
- Manage a compromised airway with manual maneuvers, adjuncts, and suction.
- Recognize and initiate care for shock, cardiac, respiratory, and neurological emergencies.
- Apply START triage to sort a multi-casualty scene within the target window.
- Document patient care accurately and understand medical-legal responsibilities.

Assessment & Grading

Component	Weight	Notes
Written examinations (3)	30%	Midterm and two unit exams
Practical skills stations	30%	Pass/refine model, must pass all
Field simulation performance	15%	Scenario-based, graded rubric
Homework & case documentation	10%	Weekly
Final comprehensive exam	15%	State-format written + practical
Total	100%	95% cohort pass-rate target

Weekly Schedule (abbreviated)

Weeks	Topic	Skills lab
1–2	EMS system, safety, medical-legal	Scene size-up, BSI/PPE
3–5	Patient assessment & vital signs	Primary/secondary survey

Weeks	Topic	Skills lab
6–8	Airway & respiratory emergencies	BVM, OPA/NPA, suction
9–11	Cardiac, medical, trauma	CPR/AED, bleeding control, splinting
12–13	Mass-casualty & special populations	START triage drill, 38 role players
14–15	Review & state-format exams	Comprehensive practical

Certification Successful completion qualifies the student to sit for the NYS DOH EMT-Basic written and practical examinations. Skills demonstration videos are hosted on the program Vimeo library; accreditation records are maintained by the department chair.

Policies

- Attendance at skills labs is mandatory; more than two lab absences requires a make-up before the practical exam.
- Academic integrity and professionalism follow the John Jay College code of conduct.
- Required text: national EMT-Basic curriculum edition; supplemental readings posted to the LMS.
- Students must complete a criminal-background and immunization clearance before clinical rotations.

This syllabus is subject to minor revision with notice. Grading disputes follow the departmental appeal process through the chair. Reasonable accommodations are arranged through the Office of Accessibility Services.
