Coverage Statement

As of this anniversary the policy is in force with all premiums paid to date and the full \$250,000 death benefit payable to the named beneficiary. Combined with the \$500,000 term coverage provided through the FDNY, total life protection on the insured is \$750,000, which the household reviews against the outstanding mortgage, the children's education funding, and interim income replacement. This statement is for the policyowner's records; beneficiary and coverage decisions should be revisited during the annual household financial review with the agent of record.
