

Self-Assessment - Annual Performance Review

Corey Holloway - November 2026

Role Summary

Senior Site Reliability Engineer at Apex Cloud Services. 8 years at Apex. Leading Kubernetes reliability improvements, mentoring 2 junior SREs, contributing to Q4 capacity planning and Q1 2027 preparation.

Key Contributions

Area	Achievement	Impact
Incident Response	Led INC-2025-041 P1 and INC-2026-001 P2 to resolution	Zero data loss; runbooks updated
Kubernetes	Completed capacity expansion model; 4 risk areas identified	Expansion on track per Raj Mehta approval
Mentoring	Weekly sync with 2 junior SREs; led INC-2025-028 debrief	Both completed solo on-call shifts Q4 2025
Runbooks	Rewrote 14 runbooks; DNS P1 triage added	First-response time cut from 8 min to 5 min avg

Development Areas

- Cross-team written summaries for non-SRE stakeholders per Raj feedback.
- Kubernetes etcd internals: completed SRE refresher course.
- Delegation: letting junior SREs lead P2s with me shadowing.

Goals Next 12 Months

- Complete Q4 expansion and begin Q1 2027 planning with zero P1 incidents from capacity gaps.
- Develop one junior SRE to full on-call lead independence.
- Complete etcd five-node migration by Q4 2026.
- Finalize SRE Runbook v2.0 in Confluence.
