How Your County Tax Is Calculated

The county real estate tax equals the assessed value of the property multiplied by the county millage rate, divided by 1,000: assessed value x millage / 1000. For this parcel: \$128,500.00 x 4.73 / 1,000 = \$607.80 face tax. Paying within the discount period reduces the amount to \$595.64. The assessed value is set by the Allegheny County Office of Property Assessments, not by the Treasurer.

Step	Calculation	Result
Assessed value	as certified	\$128,500.00
County millage	mills	4.73
Face tax	128,500.00 x 4.73 / 1000	\$607.80
Discount amount	2 percent of face	\$12.16
Discounted tax	face less discount	\$595.64

What This Bill Does Not Include

This is a COUNTY tax bill only. The Borough of Millvale (municipal) real estate tax and the school district real estate tax are billed separately by those taxing bodies and are not included in this amount. This parcel is not escrowed through a mortgage lender; taxes are paid directly by the property owner. Retain this bill for your income tax and personal records.
