Referred by Dr. James Patel
Plan date: January 14, 2026

Home Exercise Plan, Lower Back and Right Hand

Goal: reduce lower back strain from prolonged sitting at the pottery wheel and ease right hand stiffness from repetitive clay work. Perform daily, ideally after the morning studio check.

Lower Back

- Cat to cow stretch, 10 slow repetitions.
- Supine knee to chest, hold 20 seconds each side, 3 times.
- Pelvic tilts, 2 sets of 12.
- Standing back extension, 8 repetitions, between throwing sessions.

Right Hand and Wrist

- Paraffin wax bath for 10 minutes after intense studio sessions.
- Tendon glides, 5 sets, twice daily.
- Grip putty squeezes, 2 sets of 15.
- Wrist flexor and extensor stretches, hold 20 seconds each.

Continue yoga and trail running as tolerated. Take a standing break every forty minutes at the wheel.

Reassess at next annual physical in January 2027. Therapist: Rio Grande Medical Associates PT, January 14, 2026.
