Opening Reception: Water Memory

New work by Sarah Nelson

Dear friends of Modern Edge,

Please join us for the opening of Water Memory, a new body of photographic and installation work by Sarah Nelson. The reception is Saturday, January 24, 2026, from 5 to 8 in the evening at the gallery in Nob Hill. The artist will be present.

Nelson spent two years following the Rio Grande and the arroyos that feed it. The result is quiet, exact, and a little haunted. At the center of the show is Watershed Study, a floor installation in glass and steel. The exhibition runs through February 28, 2026.
