Annual Wellness Examination — Visit Summary

Field	Value
Patient Name	John Eugene Baker
Date of Birth	January 12, 1964
Age	61
Visit Date	November 5, 2025
Visit Type	Comprehensive Annual Wellness Exam (AWE)
Provider	Dr. Nguyen T. Pham, MD — Internal Medicine
NPI	1477382940
Insurance	Medicare Part B / Humana Supplement Plan G

Chief Complaint / Reason for Visit

Annual wellness examination as scheduled. Patient reports general good health since last visit. He notes mild fatigue on exertion and occasional knee stiffness in the mornings, both of which he attributes to age and his daily 2-mile walks. No acute complaints. CPAP therapy for sleep apnea is ongoing and patient reports improved sleep quality.

Medical History

Condition	Onset	Status
Obstructive Sleep Apnea	2021	Managed — CPAP ResMed AirSense 11
Hypertension (mild)	2018	Controlled — Metoprolol 25mg daily
Hypercholesterolemia	2019	Diet-controlled, no statin required
Bilateral knee osteoarthritis (mild)	2022	Conservative management
Pre-diabetes (borderline A1C)	2023	Resolved — A1C normalized 2024

Heart Rate	68 bpm	60-100 bpm	Normal
Respiratory Rate	14 breaths/min	12-20/min	Normal
Temperature	98.4 F	97.7-99.5 F	Normal
Height	5 ft 11 in	—	—
Weight	194 lbs	—	—
BMI	27.0	18.5-24.9 Normal; 25-29.9 Overweight	Overweight
SpO2	97 pct	95-100 pct	Normal
Vision (corrected)	20/30 OU	—	Acceptable with correction

Systems Review

Cardiovascular: Regular rate and rhythm. No murmurs, gallops, or rubs. Peripheral pulses 2+ bilaterally. No peripheral edema.

Respiratory: Lungs clear to auscultation bilaterally. No wheezing, crackles, or diminished breath sounds. Patient sleeps 7-8 hours nightly with CPAP; reports no apneic episodes per device data review.

Musculoskeletal: Full range of motion in upper extremities. Mild crepitus in both knees with flexion. No joint effusion. Strength 5/5 all extremities. Gait is normal.

Gastrointestinal: Abdomen soft, non-tender. No hepatosplenomegaly. Normal bowel sounds. Patient reports regular bowel habits.

Neurological: Alert and oriented x4. Cranial nerves II-XII intact. No focal deficits. Memory and cognition intact per brief MMSE screening.

Skin: No suspicious lesions. One seborrheic keratosis on right forearm, benign.

Laboratory Results — Quest Diagnostics (11/05/2025)

Test	Result	Reference Range	Status
HbA1c	5.4 pct	<5.7 Normal	Normal
Fasting Glucose	94 mg/dL	70-99	Normal
Total Cholesterol	188 mg/dL	<200 Desirable	Desirable
LDL Cholesterol	112 mg/dL	<100 Optimal	Near Optimal
HDL Cholesterol	48 mg/dL	>40 Men	Acceptable
Triglycerides	138 mg/dL	<150	Normal
BUN	17 mg/dL	7-20	Normal
Creatinine	0.98 mg/dL	0.7-1.3	Normal
eGFR	81 mL/min	>=60	Normal
Sodium	140 mEq/L	136-145	Normal
Potassium	4.1 mEq/L	3.5-5.1	Normal
TSH	2.1 mIU/L	0.5-4.5	Normal
PSA	1.8 ng/mL	<4.0 Age 61	Normal
CBC — WBC	6.2 K/uL	4.0-11.0	Normal
CBC — Hemoglobin	14.8 g/dL	13.5-17.5	Normal
CBC — Platelets	228 K/uL	150-400	Normal

Assessment and Plan

Active Problem List

- 1. Obstructive Sleep Apnea — Stable.** Patient reports good CPAP adherence averaging 6.5 hours nightly. Device compliance data reviewed. AHI under therapy is 2.1 events/hour. Continue current settings. Schedule follow-up CPAP supply reorder through Coastal Medical Supply. Next sleep study not required at this time.
- 2. Hypertension — Well controlled.** Blood pressure 126/78 at visit, consistent with home readings patient tracks. Continue Metoprolol Succinate 25mg daily. Patient tolerating medication without side effects. Recommend continued low-sodium diet.
- 3. BMI Overweight — Diet and Activity Counseling.** Patient walks 2 miles most mornings and maintains active woodworking and gardening. Encouraged to continue physical activity. Discussed Mediterranean-style eating pattern. No pharmacologic intervention needed at this time.
- 4. Mild Knee Osteoarthritis — Conservative Management.** Patient finds acetaminophen 500mg PRN effective for stiffness. Advised to avoid NSAIDs given mild hypertension. Referred for physical therapy evaluation if symptoms worsen.

Preventive Care Completed This Visit

Screening or Service	Result	Recommendation
