DIABETIC RETINOPATHY SCREENING REPORT

Examination Date: November 8, 2024 | Report Date: November 8, 2024

Patient Name: Rebecca Anne Price
Date of Birth: January 14, 1976 (Age 48 at exam)
Address: 2247 Harbert Avenue, Cooper-Young, Memphis, TN 38104
Referring Physician: Dr. Stephanie Wright, MD, Midtown Family Practice
Diagnosis: Type 2 Diabetes Mellitus (E11)
Years with Diabetes: Approximately 8 years (diagnosis 2016)

VISUAL ACUITY

Eye	Distance (Uncorrected)	Distance (Corrected)	Near (Corrected)
Right Eye (OD)	20/40	20/20	20/20
Left Eye (OS)	20/30	20/20	20/20

DILATED FUNDUS EXAMINATION

Pupils: Equal, round, and reactive to light bilaterally. Dilation achieved with 1% tropicamide.

Finding	Right Eye (OD)	Left Eye (OS)
Diabetic Retinopathy Grade	No Diabetic Retinopathy	No Diabetic Retinopathy
Macula	Normal foveal reflex, no edema	Normal foveal reflex, no edema
Optic Disc	Normal cup-to-disc ratio 0.3	Normal cup-to-disc ratio 0.3
Vessels	Normal caliber and course	Normal caliber and course
Periphery	Normal, no tears or detachment	Normal, no tears or detachment
Intraocular Pressure	15 mmHg	14 mmHg

IMPRESSION AND PLAN

No diabetic retinopathy detected in either eye. This is a reassuring finding given Rebecca's eight-year diabetes history and her current excellent glycemic control with A1C at 6.4%. Normal intraocular pressure bilaterally. No signs of glaucoma or macular degeneration.

The annual diabetic retinopathy screening is strongly recommended for all patients with Type 2 diabetes regardless of current control level. Rebecca is encouraged to continue her current regimen. Next screening due: November 2025.
