LABORATORY RESULTS REPORT

Specimen Collection Date: December 30, 2025 | Report Date: December 31, 2025
Ordering Provider: Dr. Stephanie Wright, MD | Lab: Quest Diagnostics, Memphis

Patient Name: Rebecca Anne Price
Date of Birth: January 14, 1976
Patient ID: MFP-RP-20160401
Insurance: BlueCross BlueShield of TN, PPO | Plan ID: TN-BCBS-PPO-4482
Diagnosis Code: E11.9 - Type 2 Diabetes without complications

TEST RESULTS

Test Name	Result	Reference Range	Interpretation
Hemoglobin A1c (HbA1c)	6.4%	Less than 5.7%: Normal 5.7 to 6.4%: Prediabetes range 6.5% and above: Diabetes	In range for managed T2DM. Consistent with prior results
Estimated Average Glucose	137 mg/dL	Based on A1c calculation	Corresponds to A1c of 6.4%
Fasting Glucose	108 mg/dL	70 to 99 mg/dL normal 100 to 125 mg/dL prediabetes range	Mildly elevated. Patient non-fasting at time of draw per notes

PROVIDER COMMENTS

Rebecca's A1C remains at 6.4%, which is excellent for her treatment profile and consistent with her Dexcom G7 monitoring data. The slight elevation in fasting glucose reflects the holiday season dietary patterns that are entirely normal and manageable.

Continue Metformin 1000mg twice daily. Continue Dexcom G7 monitoring. Annual physical due October 2026.

No medication changes at this time. Well done.
