Product summary

The JetForce airbag pack is an electronic avalanche airbag that can be deployed and reset without a separate cartridge. It is part of the standard kit carried on patrol and on guided days, sized to hold a shovel, probe, layers, and the day's food and water.

Feature	Detail
Type	Electronic avalanche airbag pack
Volume	Day touring size
Use	Patrol, control work, and public course teaching
Care	Test fan function at season start, charge before tours

Warranty and support

- Covered under the standard manufacturer warranty against defects.
- Return labels for warranty service are arranged through the pro account.
- Firmware and fan checks are recommended at the start of each season.

Pro program terms

- Pro pricing is for the account holder's personal professional use only.
- Items purchased on the pro program may not be resold.
- Account standing is reviewed annually against professional status.
- Order history and receipts are available through the pro account portal.

Thank you for being a Black Diamond ambassador in the field. Keep this receipt for your records and for warranty claims.
