VISIT SUMMARY, AFTER VISIT INSTRUCTIONS

Patient: Kelly M. West

Date of Birth: November 8, 1981

Date of Visit: October 20, 2026

Provider: Rebecca Nolan, MD, Otolaryngology

Visit Type: Annual ENT follow-up

Reason for Visit

Annual follow-up for chronic sinusitis, diagnosed 2019.

Patient reports one mild flare since last visit, resolved with a short course of antibiotics. No severe episodes.

Examination Findings

Nasal passages: Mild mucosal edema, no acute infection today.

Septum: Midline. Oropharynx: Clear. Ears: Normal bilaterally.

Assessment and Plan

1. Chronic rhinosinusitis, well controlled on current regimen.
2. Continue fluticasone 50mcg nasal spray, 2 sprays per nostril.
3. Continue saline irrigation as needed during allergy season.
4. Return in one year (October 2027) or sooner if a flare does not respond to first line care.
