54 Grayston Drive, Sandton, Johannesburg, 2196

STUDIO AND BROADCAST FACILITY USAGE POLICY

Issued by: Dr. Nomsa Khumalo, Station Manager
Effective date: 2 January 2024 Version: 3.1

1. PURPOSE

This policy sets out the rules governing access to, and use of, the Rhythm FM 94.7 broadcast studios, editing suites, and associated technical equipment. It applies to all on-air presenters, producers, engineers, and guest contributors.

2. EQUIPMENT HANDLING

All presenters are responsible for the equipment assigned to their show. Microphones, headsets, and mixing surfaces must be wiped down and returned to their resting positions at the close of each shift. Any fault or damage must be reported to the sound engineer on duty within 30 minutes of discovery. Naledi Tau (extension 204) is the primary contact for Studio A technical issues.

Personal recording devices, including mobile phones, may not be used to capture broadcast audio without the written approval of the Station Manager.

3. AFTER-HOURS ACCESS

After-hours access to Studio A and the editing suite is permitted for contracted presenters who hold a valid access card. Access after 21:00 requires prior notification to the building security desk at least two hours in advance. Contractors and guest contributors may not access the facility after 18:00 unless accompanied by a staff member.

4. GUEST SIGN-IN PROCEDURE

All guests must be registered at reception no later than 15 minutes before their scheduled arrival in studio. The presenter or producer responsible for the guest is accountable for completing the guest log in the studio reception register. Guests must not be left unaccompanied in any technical area.

5. SOCIAL MEDIA AND EMBARGO WINDOWS

Content recorded in studio for broadcast on a future date is subject to an editorial embargo until it goes to air. No presenter, producer, or guest may share, preview, or publish any portion of unaired content on social media or personal channels without prior approval from the Station Manager. Pre-show preparation material, including guest interview notes and segment scripts, is internal and may not be shared externally.

6. FOOD AND BEVERAGES

Beverages in sealed or lidded containers are permitted in Studio A and Studio B. Open containers of liquid are not permitted on or near any mixing or playback equipment. Food is

restricted to the break room on level two.

7. COMPLIANCE

Repeated or serious violations of this policy may result in disciplinary action under the station's code of conduct. All staff are required to sign an acknowledgement of this policy at the start of each contract year.

Dr. Nomsa Khumalo

Station Manager, Rhythm FM 94.7
