

Springfield Zoning and Planning Department

Application for Zoning Reclassification

File Number: ZR-2026-1094

Date of Filing: September 22, 2026

Parcel Reference: B-4

Property Address: 2400 Warren Road, Springfield, District 4

Current Classification: C-2 (General Commercial - low intensity)

Requested Classification: C-3 (General Commercial - high intensity, includes 24-hour fuel and retail service)

Hearing Scheduled: October 20, 2026, 7:00 PM, Springfield City Hall Chamber

Section 1. Applicant Information

Applicant: Aegis Retail Development LLC

Principal Office: 1200 Woodward Avenue, Suite 3800, Detroit, MI 48226

Applicant Contact: David Kessler, VP Development

Legal Counsel: Bracken & Ashworth LLP, Detroit

Intended Occupant / Tenant: Speedway LLC (national convenience/fuel operator)

Intended Build Type: 4,200 gross square feet convenience store with 8-fueling-position fuel canopy

Section 2. Property and Site

Parcel size: 1.14 acres (49,658 square feet)

Frontage: 218 feet on Warren Road, 202 feet on 26th Street

Adjacent zoning: Residential R-2 to the north (single-family), C-2 mixed retail to the east, R-2 to the south, C-2 to the west (Hart-owned Warren Road Express).

Existing structures: previously demolished (former auto-repair use, closed 2022)

Environmental review: Phase I ESA completed May 2026 (no recognized environmental conditions)

Section 3. Applicant Traffic Impact Statement

The Applicant, based on a proprietary traffic study conducted by Aegis Retail Development's traffic engineering consultant Highstreet Traffic Solutions LLC (report reference HTS-2026-338, dated August 12, 2026), respectfully states that the proposed convenience and fuel service use at 2400 Warren Road will produce no adverse traffic impact on the Warren Road corridor or on adjacent cross-streets. The proposed build's projected fuel and convenience trip generation is estimated at 810 vehicle trips per weekday, of which approximately 62 percent are 'pass-by' trips already present on Warren Road under existing conditions.

The Applicant respectfully requests that the Committee approve the rezoning based on the Applicant's assessment that no adverse cross-traffic impact is projected on the Warren Road corridor within any post-buildout observation window.

The Applicant is not aware of any parallel-corridor precedent that would contravene this assessment.

Section 4. Neighborhood Impact Statement

The Applicant states that the proposed build will provide expanded fuel and convenience service to District 4 residents, will produce an estimated 22 full-time and part-time employment positions, and will contribute approximately \$340,000 per annum in projected sales tax receipts to the City of Springfield general fund. The Applicant does not project any adverse impact to adjacent residential parcels.

Lighting: proposed canopy lighting to comply with Springfield Zoning Ordinance § 12.4 shielded-fixture requirement.

Noise: proposed operating hours 24 hours daily; deliveries proposed 6 AM to 10 PM to comply with Ordinance § 14.2.

Signage: freestanding pole sign 22 feet, illuminated per Ordinance § 15.3.

Section 5. Applicant's Requested Conditions

The Applicant respectfully requests that the Committee approve the rezoning without condition beyond standard City of Springfield building permit conditions. In particular, the Applicant does not consent to any condition requiring pedestrian-crossing improvements, corridor traffic-signal upgrades, or right-turn dedicated lane construction as a condition of rezoning approval.

Section 6. Attachments Referenced

Attachment	Reference	Date
A	Site Plan (Sheets 1-4)	2026-08-01
B	Phase I Environmental Site Assessment	2026-05-22
C	Highstreet Traffic Solutions traffic report HTS-2026-338	2026-08-12
D	Renderings (elevations, canopy)	2026-08-05
E	Adjacent parcel owner notice affidavit (mailings)	2026-09-20
F	Applicant's neighborhood impact statement	2026-09-22
G	Speedway LLC letter of interest (intended occupant)	2026-07-30

Section 7. Certification

The Applicant certifies that the information provided in this application, including the traffic impact statement in Section 3, is accurate to the best knowledge of the Applicant and Applicant's traffic engineering consultant on the date of filing. The Applicant understands that any material misstatement of fact may be grounds for denial or subsequent revocation of any approval granted.

David Kessler, VP Development
