Annual External Penetration Test, FY2026

**Engagement:** Ironclad Security Consulting LLC / Amanda Martinez, CISSP  
**Test window:** 2026-10-28 to 2026-11-14  
**Deliverable due:** 2026-11-14 end of day, America/New\_York  
**Jira tracker:** STON-42  
**Primary contact:** Jordan Ellis, InfoSec Lead (jordan.ellis@stonewickfinancial.com)  
**Client channel:** compliance@stonewickfinancial.com (Slack thr-501)

| Deliverable                  | Format      | Due               |
|------------------------------|-------------|-------------------|
| Executive summary            | 2-page PDF  | 2026-11-14 EOD ET |
| Technical findings with CVSS | PDF report  | 2026-11-14 EOD ET |
| Evidence bundle              | ZIP archive | 2026-11-14 EOD ET |

### In scope

- stonewickclient.com production surface
- VPN and MFA authentication paths
- AWS production VPC (read-only recon and enumeration)
- Phishing simulation against staging user pool only

### Out of scope

- Physical security and facility access
- Executive personal devices and accounts
- Trading floor systems and live market connectivity

### Reporting requirements

Findings must be delivered to compliance@stonewickfinancial.com with Jordan Ellis copied. The executive summary is a maximum of two pages; the technical findings document must include CVSS 3.1 scores per finding; the evidence bundle must be provided as a ZIP archive. All artifacts due by 2026-11-14 end of day Eastern.

### Calendar reconciliation note

The authoritative deliverable date for this engagement is 2026-11-14 EOD ET, as confirmed in Jira STON-42 and Slack thread thr-501. Any 2026-11-17 references in older calendar snapshots are superseded by this scope letter.

### Client sign-off

|                                   |                                        |
|-----------------------------------|----------------------------------------|
| Vendor                            | Client                                 |
| Amanda Martinez, CISSP (Ironclad) | Jordan Ellis, InfoSec Lead (Stonewick) |

|                  |             |
