Payment amount	\$180.00
Payment reference	ACH-2026-0822-04128
Confirmation	Full satisfaction of invoice BW-INV-2026-0611

SERVICE NOTES AND RECOMMENDATIONS

Pool pump variable speed unit exhibiting early bearing noise. Amperage draw on the high setting elevated by approximately 12 percent compared to the January 2026 baseline. Recommend inspection at next quarterly visit or scheduling of preemptive replacement. Written estimate for pump replacement work will be issued separately when the customer requests.

Skimmer basket at the north end shows minor cracking at the handle interface. Not urgent but plan to replace at next visit for approximately \$22.00 including labor.

Backyard leaf load has increased with the late summer growth pattern. Recommend increasing skimmer basket emptying frequency from weekly to twice weekly through the fall.
