Tax treatment

Body capitalized as 5-year MACRS depreciation (Schedule C Line 22). \$2,499.00 cost basis. Spare batteries, strap, memory card expensed in Q1 2024 (Line 22). See data/equipment_purchase_log_2023_2024.xlsx and data/ravi_q3_2026_deduction_worksheet.xlsx Depreciation sheet.

Why a backup body

Jesse's primary A7IV was purchased March 2023 (serial SN-A7IV-2023-04421). The cookbook arc (Salt + Press, signed Q1 2024) introduces shoot-day redundancy requirements that a single body cannot satisfy. A backup body protects against mid-shoot body failure on cookbook days.

END OF INVOICE.
