

Q3 Portal Redesign Review — Agenda

Cardinal MyCare (client anonymized: Cardinal Health Partners) · Meridian UX Group
Reporting month: September 2026 · Draft agenda — time TBD (see invite thread; latest word Fri Oct 16, 4:30–6:00 PM ET)

#	Item	Owner	Min
1	Welcome + quarter framing	Lila Fontaine	5
2	Trusting the numbers: metric-definition change (Sep 14) and reconciliation	Anita Patel / GA4 / Mixpanel / Amplitude / PostHog	12
3	September readout by journey, device, new-vs-returning, acquisition	Anita Patel	15
4	Friction list: top drop-off points cross-referenced with support, errors, search, login (ranked by reach)	Paula Leung	12
5	Bill-pay incident (Sep 12–18): separating the dip from structural friction	Anita Patel	8
6	Redesign readiness: slot-race fix, onboarding fallback, before/after screens	Raj Mehta / Tanya Brooks	10
7	Q4 scope + decisions	Lila Fontaine	8

Pre-reads: reconciled September figures, friction list (each point tied to ≥2 sources), before/after flows.
Ground rule: Amplitude (user_id) is source of truth; GA4 over-counts booking completions. Footnote the Sep-14 definition change wherever September looks like a lift.

Reminder: client name stays anonymized in all shared materials. No patient identifiers. No internal health/finance/personal context.
