Project Title and Summary

Project Title: Expanding Reach of the MACCF Youth Chess Development Program, 2026

Funding Requested: \$8,500

Project Period: January 2026 through December 2026

The Mid-Atlantic Community Chess Federation is requesting \$8,500 from the Chesapeake Community Foundation to sustain and expand its after-school youth chess program, currently serving more than 40 children ages 8 to 18 across 6 public and independent schools in Montgomery County and Prince George's County, Maryland. This grant will fund program coordinator stipends, instructional materials, chess equipment replacement, and transportation subsidies for students attending MACCF tournaments.

Program Description

The MACCF Youth Chess Development Program has operated continuously since 2011. The program places trained volunteer mentors, led by USCF-rated federation members, in after-school settings at 6 partner schools for 90-minute weekly sessions during the academic year. In the 2024 to 2025 program year, 43 students were enrolled across the 6 school sites. Fourteen students competed in at least one rated MACCF tournament, with four earning top-three finishes in the Scholastic Section of the 2025 Annual Open.

Chess instruction in this program follows a structured curriculum developed by the MACCF board and reviewed annually. Students progress through four skill tiers from beginner to advanced competitive, with advancement measured by performance in in-class exercises and USCF-rated tournament results. The curriculum is documented in the MACCF Youth Program Mentor Handbook, updated January 2026.

Proposed Budget

Line Item	Amount	Notes
Program Coordinator Stipend (part-time, 12 months)	\$3,600	\$300/month, 20 hours/month
Instructional Materials (workbooks, puzzle sets)	\$800	Approx. \$130 per school site
Chess Equipment Replacement (boards, clocks, pieces)	\$1,200	Replacement of worn equipment at 3 sites
Transportation Subsidies (student tournaments)	\$1,400	Bus passes and family reimbursement
Tournament Entry Fees (sponsored students)	\$900	15 sponsored entries at avg. \$60
Volunteer Training and Certification	\$350	USCF online arbiter and coach modules
Administrative and Printing Costs	\$250	Handbooks, enrollment forms, certificates
Total Request	\$8,500	

Expected Outcomes

By December 2026, the MACCF Youth Chess Development Program expects to: enroll at least 45 students across the 6 school sites; place at least 12 students in USCF-rated tournaments; achieve a retention rate of 75% or higher from fall to spring enrollment; and produce at least 2 students who achieve a USCF rating of 800 or above by year end.
