Log Violations (ELD):	0 (zero)
Hours of Service Violations:	0 (zero)

Performance Narrative and Statistics - 2025

Supervisor Narrative

Anthony continues to be one of our most reliable and safest drivers at Ridgeline Freight Solutions. His 12-year tenure with the company reflects a consistent record of professionalism, on-time performance, and exemplary safety habits that set a standard for the entire fleet.

In 2025, Anthony completed 248 loads with a 98.2% on-time delivery rate, placing him in the top 5% of all Ridgeline drivers company-wide. He received zero DOT violations in four roadside inspections conducted during the year. His truck (Unit RFS-T680-22-04) was consistently maintained and returned from every trip with all required pre-trip defect reports completed on time.

Anthony is a preferred driver for our key accounts in the Southeast and Midwest corridors, including Hargrove Industrial and Meridian Distribution. Multiple customers have submitted positive feedback specifically naming Anthony by name for his professionalism and communication.

Anthony manages his CPAP-related DOT medical requirements without any impact on availability or scheduling. He remains current on all certifications and his DOT medical card is valid through January 28, 2027.

He mentored two newer drivers (orientation cohort of September 2025) on route planning and fuel-efficient driving techniques. This kind of voluntary contribution to team culture is exactly what Ridgeline values.

Recommendation: Anthony is approved for the 2026 rate increase to \$0.64 per mile, effective January 1, 2026. He is also eligible for the Ridgeline Driver of the Year nomination for 2025.

2025 Performance Statistics

Total Loads Completed:	248
Total Miles Driven:	126,480
On-Time Delivery Rate:	98.2% (244 of 248 loads on time)
Miles Without Incident:	126,480 (100%)
Average Load Value Hauled:	\$22,400 per load

2026 Mileage Rate (approved):	\$0.64 per mile effective January 1, 2026

Signatures, Acknowledgment and Goals

2026 Performance Goals

1. Maintain zero-violation safety record throughout 2026.
2. Achieve 98% or higher on-time delivery rate for all assigned loads.
3. Complete Ridgeline voluntary advanced defensive driving refresher (Q2 2026).
4. Maintain CPAP compliance above 90% and provide data at January 2027 DOT renewal.
5. Continue mentoring new drivers as requested by dispatch supervisor.
