

Ridgeline Freight Solutions - Driver Reminder Bulletin

Ridgeline Freight Solutions LLC - Southeast/Midwest Region

Driver Reminder Bulletin (posted to the driver board, not a dispatch order)

Hours of Service - quick reminders

- Protect your 10-hour reset. A rushed reset is a bad reset.
- Log the pre-trip every morning. A clean log is a clean audit.
- If weather cuts your day short, park early and note it. Nobody gets paid to slide.

Winter corridor notes

- I-65 through the higher stretches gets fog and ice first. Ease into it.
- Chains and washer fluid checked before the northern runs.

From dispatch: text Mike Hensley with your ETA changes, do not wait for the call.

Drive it like your medical card depends on it, because it does.

This bulletin is informational. Your assigned loads come through dispatch as always.
