Re: 2026 Compensation Adjustment

Dear Amanda,

Following the 2025 performance and compensation review, I am glad to confirm your updated compensation, effective February 1, 2026.

Your annual base salary is \$165,000.00, paid semi-monthly through Gusto. In addition, you will receive a new restricted stock unit grant valued at approximately \$20,000 per year, vesting quarterly over four years under the terms of your grant agreement. Your title remains Senior Software Engineer on the Platform Backend team, reporting to me.

This adjustment recognizes your work as the senior individual contributor on the team, your mentoring of junior engineers, and your leadership during the RC-2291 incident. Your benefits, including SelectHealth medical coverage for you and your dependents, dental, vision, and the company 401(k) match, continue without change. Your flexible schedule and core hours of 10:00 AM to 4:00 PM also remain in place.

Please countersign below and return a copy to People Operations. If you have any questions, reach out to me directly or to peopleops@ridgelinecloud.io.

Thank you for the steady, careful work you bring to the team.

Sincerely,

Rachel Nguyen
Engineering Manager, Platform Backend
Ridgeline Cloud, Inc.
rachel.nguyen@ridgelinecloud.io

Acknowledged and accepted:
