

Gold Country Century, 16 Week Build

Rider: Angela Fry. Event: 100 miles, Sunday, October 18, 2026, rolling start from the Plymouth fairgrounds. Training partner: Marcus Chen. Plan reviewed February 2026.

Approach

Steady, not fast. Three rides a week with one long Saturday ride and one quality midweek session. Mileage is weekly total. Keep the long ride conversational and let the body recover. Back off if the right shoulder flares after a heavy clinic week.

Weekly Build

Week	Long ride	Midweek quality	Weekly total	Note
1	30	Recovery spin	48	base legs, easy week
2	36	Tempo 2x12	56	River Road flats
3	42	Hill repeats Latrobe	64	first real climbing
4	30	Recovery	50	planned down week
5	46	Tempo 3x10	70	Sloughhouse loop
6	52	VO2 4x8	78	American River intervals
7	56	Hill repeats	86	Latrobe to Plymouth preview
8	40	Recovery	60	down week, bike service
9	60	Tempo 2x20	92	Gold Country foothills
10	64	Climb endurance	100	Plymouth to Fiddletown
11	70	Hill repeats	108	longest climbing block
12	48	Recovery	72	taper start, sharpen legs
13	75	Race pace blocks	112	final long with Marcus
14	50	Tempo openers	78	drop volume keep intensity
15	35	Short openers	52	rest the legs
16	100	Event week	Century	Sunday October 18, ride day

Fueling and care

Aim for sixty grams of carbohydrate an hour on rides over two hours. Two bottles an hour in the heat. Pre ride espresso and oats. Shoulder mobility every morning. Sleep is part of the plan, lights out by ten thirty.
