

Harborview Chiropractic

Marcus Yee, DC

410 East Roosevelt Road, Wheaton, IL 60187 (630) 555-9340

Date of Plan: January 22, 2026

Patient: Cecilia Burnett

Date of Birth: November 14, 1980

Care Plan, Chronic Lower Back

Assessment

Patient presents with chronic lower back pain consistent with years of repetitive forward bending and seated work at the nail station. Reports stiffness worst in the morning and after long days at the Main Street location. No new injury. No radiating leg symptoms.

Plan

- Adjustments twice monthly, first and third weeks, to maintain mobility.
- Home stretching routine for hip flexors and hamstrings, five minutes morning and evening.
- Continue the morning riverwalk walks. Walking is good for this, prolonged standing is not.
- Use a cushioned mat and an adjustable stool at the workstation.

Fees

Per visit fee 65.00. Two visits per month. Patient pays out of pocket; a monthly superbill is provided on request.

Next visit: February 5, 2026. Reassess in three months.
