

Hartford Foster Futures

Foundation Grant Report, Narrative

Grantor: Hartford Foundation for Public Giving
Award \$5,000

Reporting period: winter program cycle, October to December 2025

Prepared by Kelly Nelson, Co-Founder Date: January 20, 2026

Summary of activities

Across the cycle we held three monthly support group sessions and one community forum, reaching an estimated 60 unduplicated participants. Attendance has been steady and word of mouth referrals are growing. The work remains volunteer run, which keeps overhead low and impact direct.

Outcomes against goals

Goal: three sessions held. Met. Goal: launch the resource one pager. Met, distributed at every session. Goal: recruit two new volunteer leads. Partially met, one onboarded and one in process.

Use of funds

Funds supported snacks and supplies, printing, and a modest stipend pool for the lived experience speakers. A line item ledger is on file and available on request. The grant covered roughly one third of the cycle cost, with the remainder from individual donations.

Looking ahead

The next cycle centers the October gala and the legislative push, with a goal of formalizing the volunteer lead structure so the work does not rest on two people. The gala targets \$15,000 toward the coming year.
